Re: Water Connection 3100 Block Sylvan Road. East Point to Hapeville.

Dear Georgia Hydrant Services, Inc..

The installation of the water Meter, Vault and Line by Georgia Hydrant Services, Inc. last week across Sylvan Road, from East Point to Hapeville, was the best road construction job I have witnessed in a long time.

To start with our company Peachy Airport Parking owns 30 acres, which is partially in East Point and partially in Hapeville, and all accessed from Sylvan Road. All of the many people coming to our lots to park each day drive on Sylvan Road and those same people then travel in our shuttle buses back down Sylvan Road to the Airport.

Georgia Hydrant Services, Inc. dug a trench across a busy Sylvan Road, installed a water line and then dug a large and deep hole for the Vault. All of this including truckloads of dirt, crush and run and rock. They used one of our lots by removing the fence and off loading the dirt, crush and run and rock on to our parking lot.

In spite of the above construction there was little disruption of the flow of traffic on Sylvan Road coming to or leaving our lots. The job was completed quickly and the replacement of fence and clean up of our lot left little trace that any construction had taken place.

All in all we wanted to thank and congratulate Georgia Hydrant Services, Inc. on a job well done.

Raymond Novell, Property Manager
